innovative solutions for trucks

OEM
SOLUTIONS

The expertise of an industry leader, the attention of a partner

Whether it be lashings for complex loads, new "2-in-1" products, or the optimized performance of our rings, clamps and lashing tracks, we have continuously been reinventing our fixing products by capitalizing on our know-how and the high performance levels of our production units. Our most important asset: our Design Office, which can take into account even the most specialised needs, and an OEM Solutions team that works closely with you throughout your projects.

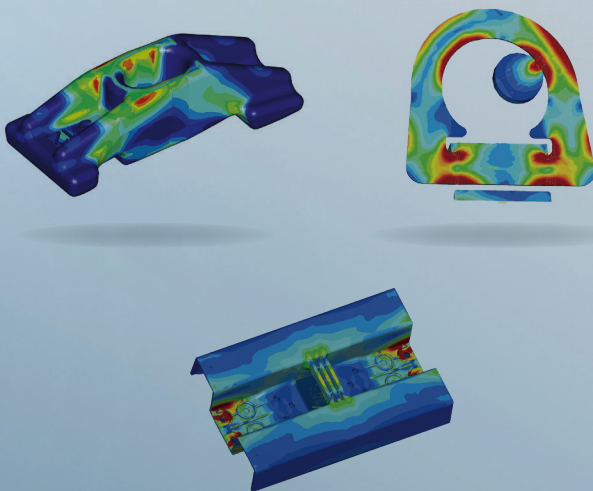

WHAT WE CAN OFFER YOU

SOLUTIONS FOR ALL CONFIGURATIONS

Quick and easy to install, our solutions offer several mounting options adapted to different uses and vehicle types. Their multi-function capability, certified mechanical strength and production control provide conformity, performance and safety in all situations.

WELL-CONCEIVED SOLUTIONS FOR GREATER DURABILITY

The geometry and the design of our products have been carefully studied to guarantee top-notch ergonomics and operator comfort without the slightest reduction in strength. Our products offer unique heavy-duty capabilities to meet the demanding needs of road transport.

OPTIMISED SOLUTIONS

By optimizing material requirements and using new material types, such as recycled ABS, we've been able to significantly reduce both the weight and dimensions of our models. As a result: smaller sizes with greater mechanical strength.

TIME-TESTED SOLUTIONS

The mechanical strength of all our equipment is tested and approved to current standards, in particular for the lashing of loads on road, sea and military vehicles (EN 12640, EN 29367-2, STANAG 3548).

The tests are performed by external laboratories such as UTAC and TÜV.

We check:

- their strength (tensile tests),
- their corrosion resistance (salt spray resistance).

Before being placed on the market, our products undergo field tests to ensure they comply with their working environment.

"Our wide range of expertise is at your service"

At POMMIER, you can benefit from our in-depth knowledge of accessories and equipment in 5 product universes to optimize the performance levels of your vehicle.

FOCUS ON

BRIKS 2 IN 1 PADDING PROFILE

This ground-breaking padding profile has revolutionised the layout of vehicle compartments. Equipped with a "2 in 1" system, it combines stowage, by means of integrated lashing tracks, with protection, thanks to its smooth design and finish, to protect goods that it may come into direct contact with. The BRIKS Padding Profile is 2 to 3 times lighter than a metre long steel profile, is as reliable as a traditional padding profile, demonstrates unrivalled strength and is incredibly easy to install. Made from ABS plastic, its eco-design approach makes it 100% recyclable.

Ready to meet all of your needs

FOR YOUR **MANUFACTURER**

YOUR TOP PRIORITY IS RELIABILITY.

The durability of our products has been proven and tested.

YOU WANT TO SAVE TIME.

We remain focused on the "installation" aspects, offering several simple and quick assembly solutions.

YOU CARE ABOUT THE ENVIRONMENT.

All of our plants have 14001 certification.

YOU WANT CUSTOMISED SOLUTIONS

We develop products adapted to your specific needs.

YOU WANT TO IMPROVE PRODUCTIVITY.

We include costs in all the development phases of our products.

FOR YOUR CUSTOMER **OPERATORS**

- **MINIMUM** DIMENSIONS AND **OPTIMUM** PERFORMANCE.
- **OPTIMAL SAFETY** FOR CARGO TRANSPORT.
- MORE **USER-FRIENDLY** AND **EASIER TO USE**.

2 PRODUCTION SITES DEDICATED TO FIXINGS AT YOUR SERVICE
